-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Action

1. This action is in response to Applicants' amendment received on September 22, 2003.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Applicant's admitted Prior Art.

In reference to claims 1-2, page 2, line 6- page 3, line 12 of Applicant's specification states that is well known in the art to produce letter envelopes from a moving web of material by applying printed images to the web; cutting the web to form at least one blank of a selected size with a printed image; removing one of the blanks from the machine; and inputting desired web cut changes in a controller to effect a change in the position of a printing apparatus relative to the blanks formed from the web.

Response to Arguments

4. Applicant's arguments with respect to claim 1-2 have been considered but are moot in view of the new ground(s) of rejection.

Examiner has found the admitted prior art of the Applicant to adequately teach the invention as claimed. Applicant has acknowledged that is known in the art to remove an imprinted blank from a web fed through an apparatus comprising a printer and a downstream

Art Unit: 3721

cutter, for the purpose of using the removed blank as a sample. Applicant has further acknowledged that in modern machines, it is known to make corrections to the apparatus as a result of examining the removed blank through input of an operator via plus or minus keys, which meets Applicant's claimed limitations of inputting desired changes into a controller to effect a change in the position of a printing apparatus.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
